Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am on disability and my wife works long hours in the food service trade and is on the road at odd hours of the night and for fairly long distances. We buy phone minutes because that is all we can afford. If we could afford subscriptions, we would do so, IF we used them for business and long distance, BUT WE DON'T.

Living on a fixed income, more taxes would put me out of the running of safety and security.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Robert Mauk
